### Blonde Gun Woman, Companion Caught

#### ADMIT KILLING AGED CHICAGO HABERDASHER

#### Red Headed Woman Of Gang Mother Of Two Babes

Chicago, Aug. 10.—(AP)—A four days' search for a blonde gun woman was over today with the arrest of a red head and her male companion from whom police said they obtained a confession that he shot and killed Gustave Hoch, 71, during a holdup.

The pair, Mrs. Eleanor Jarman, 39, mother of two children, and George Kennedy, 28, were seized last night in a rooming house where they were living as "Mr. and Mrs. Anderson." In a bureau drawer in their room and under pillows, police said they found four revolvers and a blackjack.

Capt. William Malone, leader of the raid on the house, and Assistant State's Attorney Emmett Moynihan said both prisoners confessed to them that Kennedy had fired in a panic of fear when Hoch resisted the attempted holdup in his haberdashery store last Friday.

Interested in Hair

Described as a blonde by witnesses, Mrs. Jarman's hair was a source of police interest today and they said they intended questioning her as to whether she had dyed it red as a means of disguise.

Accusations that Kennedy had fired the fatal shot were first made by a third member of the alleged robber trio, Leo Meneci, taken into custody today after the shooting when he was traced by the license number of his brother's automobile, used in the holdup. He was wounded during the robbery when he struggled in vain with Kennedy to prevent him from shooting the aged merchant.

#### Cars Collided In Rain At Third St. And Peoria Avenue

Two automobiles were considerably damaged in a collision at the intersection of Peoria avenue and Third street yesterday afternoon about 4:30, but fortunately none of the occupants was injured aside from a shaking up. Richard Huff of this city was driving west on Third street and at the intersection with Peoria avenue, a car driven by Edward Johnson of Nachusa and his family, headed east on Third street, turned suddenly north on Peoria avenue in front of the Huff car.

The wheels of Johnson's car skidded on the wet paving and in an attempt to avoid a crash, he attempted to drive on the sidewalk, but the machines collided with considerable force. It was raining heavily at the time and a little delay was experienced in clearing up the wreckage and towing the damaged machines to garages to undergo badly needed repairs.

#### Beier Bakery's Tax On Flour Runs Into Big Money Monthly

That the baking industry may rival the breweries in proving revenue for the government is indicated by the size of a check the Beier bakery of this city has sent to the Collector of Internal Revenue as processing tax on flour in the bakery's storage department as of July 9. The check was for over \$1,200 and it is estimated the local bakery alone will contribute between \$1,500 and \$2,000 monthly to the government's fund, which will be distributed among wheat growers who reduce their wheat acreage. It is estimated that the fifty larger bakeries in the central states will pay taxes of over a quarter of a million dollars monthly in processing taxes.

#### Ex-President Of Junior School At Mt. Carroll Dead

Mt. Carroll, Ill., Aug. 10.—(AP)—William P. McKee, 71, president of Frances Shimer Junior College here for 33 years, died today after an illness of two years. He retired from the college in 1930 as president emeritus.

Mr. McKee came to the college in 1897. Previously he had been pastor of the Mt. Olive Baptist church at Minneapolis. Funeral services will be conducted tomorrow.

### Threats Sent To Chicago Judges Failed To Slow Up Wheels Which Send Gunmen To Imprisonment

#### Attempted Intimidation Spurs Judiciary To Greater Effort

Chicago, Aug. 10.—(AP)—Judges of Chicago's criminal court are answering the challenges of crime with action to put gunmen behind prison bars.

Threats of death sent to members of the judiciary were followed almost immediately yesterday by the sentencing of ten more men to the penitentiary.

This action brought to 66 the total of alleged offenders sentenced to state prison since local authorities began an intensive drive ten days ago to clear the dockets of criminal cases.

Judge Joseph B. David, one of the judges threatened, read a letter containing the threats and then promptly sentenced Lester I. Brown, 23, to the maximum of one year to life for robbery. He also sentenced Jerry Ford, reputed gangster of the Roger Touhy gang, to three months in the House of Correction for having a gun.

The threatening letter was addressed to Judge David and said that the writer, who did not sign his name, would shoot the judge and "a few more judges."

It would serve to spur the judiciary on to greater efforts, Chief Justice John Prystalski of the Criminal Court said.

"This campaign," he said, "will continue unabated until the dockets have been cleaned up."

### EARLY KILLING OF MILLIONS OF PIGS NOW URGED

#### Would Be Paid For By Processing Tax On Heavy Hogs

Washington, Aug. 10.—(AP)—A program calling for the early slaughter of five million hogs, including four million young pigs, to be financed by a processing tax on all hogs weighing more than 235 pounds was presented to farm administrators today by the corn and hog belt committee of 25 and immediately endorsed by most of the major farm organizations.

The program was presented at a conference of corn and hog producers called by administrators to devise an emergency program to reduce the nation's hog population as a result of an acute feed shortage in most of the corn belt.

Earl C. Smith, Chicago, chairman of the committee, said that the program would remove from the domestic market a substantial amount of the potential hog tonnage and would have the effect of improving hog prices which have been recently depressed because of the heavy marketings of hogs by farmers who are short of feed.

Proceeds of the processing tax, which would be levied for one year, would be used to buy up four million young hogs weighing between 25 to 100 pounds from August 15 to October.

**Schedule of Prices**

For these, the committee recommended the following schedule of prices: for pigs weighing from 25 to 40 pounds, \$9 a hundredweight; 41 to 50 pounds, \$8.50; 51 to 60 pounds, \$8; 61 to 70 pounds, \$7.50; 71 to 80 pounds, \$7; 81 to 90 pounds, \$6.50, and 91 to 100 pounds, \$6.

In addition the groups proposed that administrators arrange for the purchase of one million sows soon to farrow, weighing 275 pounds and upwards, by paying a bonus of \$1 a head in addition to whatever sums they would bring in the markets.

The group proposed that administrators arrange for disposing of the resulting meat and meat products from the best of these animals by the sale on a moderate basis to relief agencies under definite agreements that the normal purchases of meat by these agencies be maintained.

### Brother Of Paw Paw Residents Took Life As Result Of Worry Over Threatened Court Action

Springfield, Ill.—The body of Ernest Prentice, 52, Springfield, brother of Mrs. Mabel Grundleman and John Prentice of Paw Paw, was found at 3:30 P. M. Tuesday in the Sangamon river, three and one-half miles southeast of Sherman.

Prentice disappeared from his home at 1 A. M. Monday and police were searching for him. Worry over threatened litigation resulting from an automobile accident last Saturday is believed to have led him to take his life. His wife declared that two men, whose names she does not

### BOND SCANDAL STIRS KANSAS; TWO ARRESTED

#### State Vaults Under Military Guard; Banks Closed

Topeka, Kas., Aug. 10.—(AP)—Two arrests have been made in the Kansas municipal bond scandal, at least \$658,000 in spurious bonds have been discovered and three state banks have been closed.

Leland Caldwell, an employee in the office of Ronald Finney, broker, was taken into custody last night on charges of having uttered \$3,000 in forged bonds to the National Bank of Topeka. Finney, previously arraigned on a similar charge, is alleged specifically to have uttered \$20,000 in spurious securities to the same bank.

Meanwhile investigations into the many angles of the case continued. D. A. N. Chase, Budget Director, and A. R. Jones, State Auditor, and their assistants were engaged in checking bonds and records in the office of the State Treasurer, Tom Boyd. State officials have revealed eight issues of municipal bonds totalling \$329,000 are known to have been forged in duplicate, one set going to the State Treasury as security for state deposits and the other set being in the hands of Chicago brokers.

**State Vaults Guarded**

While these were being worked, the vault was guarded by armed National Guard officers, who were posted to see that no bonds or records were removed without authority.

Officials of the State Banking Department were checking the records of three state banks which were closed following Finney's arrest. All three institutions—the Fidelity State Bank of Emporia, the Eureka Bank and the Farmers State Bank of Neosho Falls—are controlled by Finney's relatives.

The Emporia office of the broker was searched last night by Clarence V. Beck, Lyon County Attorney and Lester Goodell, Shawnee County Attorney. Both said they were acting at the request of Gov. Alf Landon who has insisted upon a thorough investigation, even to the point of laying the matter before the legislative council which meets next Tuesday.

**IN COLORADO COURTS**

Denver, Aug. 10.—(AP)—Ronald Finney, Kansas bond broker who is under arrest at Topeka, Kas., in connection with the alleged forgery of bonds, was scheduled to appear next Monday in District Court at Lake City, Colo., in a fraud hearing involving \$110,000 in Hinsdale county bonds.

Otto Friedrichs, Denver attorney for the broker, said he had expected to confer with Finney here.

Finney and former Hinsdale defendants in a suit brought by county Treasurer to cancel \$110,000 in county bonds—both funding and refunding. The case has been continued for more than a year.

It is alleged Finney and county commissioners entered into a conspiracy in 1930 to buy up \$110,000 of bonds for 30 cents on the dollar and that later the county voted to refund the old bonds dollar for dollar.

Finney is alleged to have taken the bonds and to have sold some to Kansas banks.

**Visitor From East Likes Dixon Parks**

Dr. M. M. Brown of North Adams, Mass., who is visiting in this city, has made a thorough inspection of Dixon's fine park system, with a view of inaugurating a campaign for the improvement of the parks in his home town, and he pays this city the fine compliment of having done splendid work in the developing the natural beauty of the community. He is warm in his praise of the foresight of the men who visualized the system and the men who are now carrying on the work.

#### Forgot To Remove Fruit From Cans He Threw At Wife

Chicago, Aug. 10.—(AP)—She could have endured the barrage of fruit and vegetables her husband occasionally tossed at her, Mrs. Bessie Spellman, 34, told Judge Walter L. LaBuy today.

It was too much, however, when he threw them at her without removing them from the cans.

Judge LaBuy decided such procedure constituted cruelty and granted her a divorce.

Canada produced 9396 motor cars during the month of May this year; her output for May, 1932, was 8221 units.

### ANGRY BELOIT MAN KILLS HIS STEP-DAUGHTER

Beloit, Wis., Aug. 10.—(AP)—Enraged when she announced she was going to a carnival despite his objections, Early Gates, 40, shot and killed his 17-year-old stepdaughter, Earleen Gates, last night. The shot penetrated the girl's left side and entered her heart. She died almost instantly. Gates was arrested in the home of his mother four hours after the shooting.

Although he still carried the 12 gauge shotgun with which the girl was shot, Gates offered no resistance to arrest. He said he did not remember the quarrel that preceded the shooting. The girl attempted to attend a carnival against Gates' will. He was taken to the Rock county jail at Janesville.

### HEAD ROCKFORD COLLEGE MEETS DEATH IN CRASH

#### Dr. W. A. Maddox And Music Director In Crossing Tragedy

Rockford, Ill., Aug. 10.—(AP)—Dr. William A. Maddox, President of Rockford College, and Alfred O. Wilgeroth, director of the college music department, were killed today when a freight train on the Milwaukee railroad crashed into their car at Davis Junction.

The car was carried for half a mile on the plot of the locomotive. One of the bodies was still in the car, the other was mangled beneath the locomotive.

Identification was made by the license plates of the Maddox car. Dr. Maddox and Wilgeroth, who was a brother-in-law of the Metropolitan Opera singer, Mme. Elisabeth Rethberg, were motoring to Kewanee to visit Mrs. Maddox, an invalid in a sanitarium there.

A leader among American educators, Dr. Maddox had been president of the college for women here since 1919 and previously had broad experience as teacher and executive in schools throughout the east and south. He was born at Richmond, Va., 50 years ago and was graduated from William and Mary College in 1904, receiving the degree of Doctor of Laws from the same institution in 1926. He earned a Master's degree in the Teachers College of Columbia University, and subsequently was connected with faculties at Portsmouth, Va.; the State Normal College at Farmville, Va.; State Normal at Oswego, N. Y.; Teachers College at Columbia and after he became head of Rockford College was chosen president of the Federation of Illinois colleges.

Wilgeroth had been a member of the music faculty since 1923 and director for the last few years.

### Roosevelt Hopeful Meditation Program Will Be Fruitful In Bringing Order Out Of Chaos

#### Machado's Party Is Asked To Urge Him To Quit Office

Havana, Aug. 10.—(AP)—The question whether President Machado shall resign his post to bring peace to Cuba, now under a formally declared state of war as the result of the menace of revolution, was placed today before the national executive committee of General Machado's Liberal party.

The executive committee met to consider the formula of peace presented by United States Ambassador Sumner Welles, acting as mediator in the conflict between the Machado supporters and the opposition.

This formula entails the withdrawal of Machado to make way for a President approved by all parties.

Differences within the parties over the mediation program widened as the liberal conference got under way, and it appeared possible that the old party lines would be completely obliterated.

Meanwhile, the general strike, which brought the conflict over Machado to a head, continued unabated despite the efforts and expectations of the government.

A state of war gripped Cuba today, its purpose being peace.

Military forces controlled the island under decree of Machado who said the general strike, paralyzing industry and trade, had given "enemies of the public peace" a chance to "create a revolutionary state in the country."

**Tension Increased**

Conflicting and unyielding attitudes of numerous elements involved in the growing crisis increased the public tension. Machado has been deaf to suggestions that he resign and that his Secretary of State, Orestes Ferrara, resign.

Ambassador Welles, moved swiftly in his efforts to bring quick fruit to his efforts to restore normalcy. Governmental and political leaders sought in conferences today to bring the several factions into agreement on some program of solution.

The declaration of a state of war came as the administration's answer to the suggestion of mediators that Machado and Ferrara resign and permit a new Secretary of State, acceptable to all groups, to accede to the present situation.

**Food Nearly Exhausted**

Grave concern was expressed for the welfare of citizens unless the strike could be brought to a quick termination. There is little bread, and the distribution of milk is being made under armed guard. Stocks of foodstuffs are being exhausted rapidly.

Since the state of war became effective at 6 o'clock yesterday evening, the military has been in full control. Unrest has increased, and the attitude of the United States is being watched closely by Cubans wondering what action President Roosevelt may take.

Roosevelt's desire, as expressed yesterday at Hyde Park, New York, is that the political difficulties be solved "at the earliest possible moment" so that economic welfare may be preserved.

**Widespread Precautions**

Widespread police precautions have been taken to halt violence. Explosion of a bomb early today, however, emphasized that strikers are not recreating from their position. The bomb damaged a bakery whose owner had not joined the strike.

The war declaration was attended by a series of swiftly moving developments, among which were:

Bertha Skirving, a 35-year-old company employee who said she is an American, was arrested for allegedly speaking unfavorably of Cuba, but was released after being warned against a recurrence.

Spanish Ambassador Luciano Lopez Ferrer, according to an authoritative source, protested to the President against treatment accorded Spaniards, two of whom were killed Monday, when guards fired on crowds near the president.

**POLICE HAVE LEAD**

New York, Aug. 10.—(AP)—A belief that Henry P. Sanborn, railroad executive, was slain by persons he knew well was expressed by detectives today. They announced they had a definite "lead" but would not say what it is.

Information given to the police was that on the day Sanborn disappeared he was on his way to look at a house he considered buying for his intended bride, Miss Magn.

**Look For "Tears Of St. Lawrence" In The Northeast Tonight**

Philadelphia Aug. 10.—The annual shower of shooting stars, the Perseid meteors, are due tonight and the three succeeding nights.

Their numbers should be greatest between midnight Friday and dawn Saturday. An hour or so before the milkman begins his rounds is a good time to watch, for few are visible before midnight. Watchers should look toward the north-east sky, low down about midnight, by dawn they are almost overhead.

Their poetic name, "The Tears of St. Lawrence," given by the Irish, best describes what to look for. They do not appear much larger than tears. Now and then one of these fiery "tears" crosses half the sky, but mostly their paths are much shorter.

### Board Of Review's Reduction In Valuation Of Lands Will Amount To About \$3,000,000

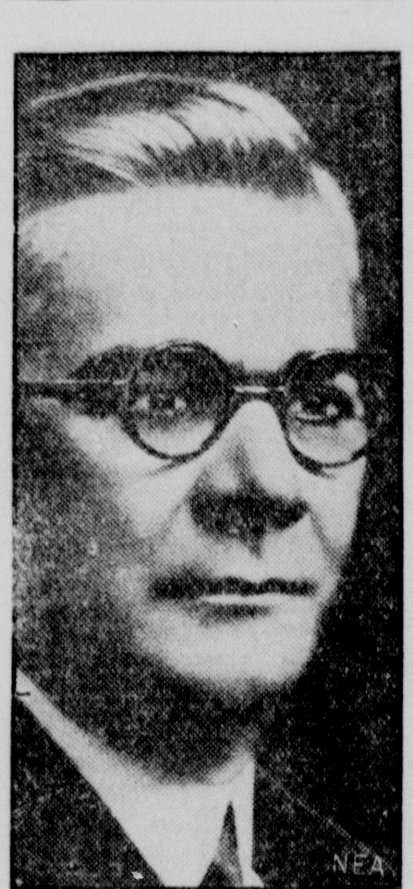

The Lee county Board of Review, following a meeting yesterday afternoon with County Treasurer Sterling D. Schrock, gave out the following statement which is of great interest to land owners throughout Lee county:

Following their investigation, the Board of Review, composed of Walter Orgtjesen of South Dixon, chairman, Joseph A. Roessler, Ashton, secretary and Mark D. Smith of this city, third member announced:

"A ten per cent reduction on assessed valuation covering all lands, lots and improvements in Lee county, excepting lots assessed under \$50. This reduction amounts approximately to \$3,000,000 in valuation under the 1932 assessment."

The board is preparing an interesting table of figures showing valuations and reductions over the past few years which will be made public within a few days. The members have been engaged this week in inspecting lands in Amboy, May and East Grove townships and today were visiting in Alto township.

### YOUNG SLAYER TO GET QUICK, FAIR HEARING

#### Confessed Murderer Of Cincinnati Man Is Returned Today

Meridian, Miss., Aug. 10.—(AP)—John J. Henkle, 19-year-old juvenile court ward, today was taken to Cincinnati to face a charge of killing Oliver S. Baily, 27-year-old member of Cincinnati's younger society set.

Cincinnati officers who came here yesterday by airplane identifying an automobile in Henkle's possession as that of Baily and said they had obtained a confession but refused to bare its contents.

District Attorney Aubert Dunn quoted the suspect as saying he had beat Baily to death with his fists during an automobile ride last Saturday night in Cincinnati after Baily had "made an immoral approach on me."

Henkle was taken to Cincinnati in custody of Detective William Cleary of Cincinnati, to face grand jury indictments returned only yesterday charging him with first degree murder and robbery.

Dudley M. Outcalt, District Attorney of Hamilton county, Ohio, who arrived here by plane yesterday, said Henkle would be given a "fast, fair trial."

**ASSURED OF SUPPORT**

Hyde Park, N. Y., Aug. 10.—(AP)—President Roosevelt was assured today by Representative Fish of New York, ranking Republican member of the House Foreign Affairs committee, of united support in whatever action he deems necessary to restore order in Cuba.

The Republican leader called on President who is demanding an immediate new deal in the island republic in the interests of eliminating the political warfare.

"I told Mr. Roosevelt," said Representative Fish, "that as ranking member of the House Foreign Affairs committee, of united support in whatever action he deems necessary to restore order in Cuba."

### THIS BIRD KNEW THE CORRECT ANSWER TO THAT—

MAN bought a parrot and tried to teach him to talk. Going over to the bird, he repeated for several minutes the words, "Hello, Hello." At the end of the lesson the parrot opened one eye and answered drowsily, "Line's busy."

### Mrs. White Arranges Geological Exhibit

Mrs. Florence Plummer White of this city is completing a huge task at the Dixon Public Library. For many years, a large collection of fossils has been gathered at the library, which is of considerable value to those interested in geology. Before the death of the late H. U. Bardwell, the library board designated Mr. Bardwell, a geological authority and student to prepare the collection suitable for exhibition.

Display cases were constructed and the work of arranging the collection was begun when Mr. Bardwell's untimely passing halted the program. Mrs. White, member of the high school faculty and an authority on geology, several days ago started work on renovating and cleaning the hundreds of specimens contained in the collection, which are being placed in display cases for the inspection of the public. Many of the fossils and donations which have been received at the library have been in storage for a number of years and have not been available for display purposes because of lack of a suitable space. Considerable of the shelf space on the second floor has been turned into display cases where the collections are being assembled, labeled and made available for public inspection.

The library board has been fortunate in securing the services of Mrs. White in arranging this valued collection and she has given liberally of her time and effort in making it a success. She will be busy for another week in completing her task.

Hostess to W. R. C. Officers and Guests

Mrs. Albertine McKinney delightfully entertained the officers of the Woman's Relief Corps and several guests at her home Tuesday. A picnic dinner was enjoyed at the noon hour, the tables being placed under the trees on the rear lawn. The clear blue sky overhead and the beautiful gardens with its colorful beds of flowers, lily pools and large shade trees made an ideal setting for this delightful event. In the afternoon Monte Carlo whist was enjoyed with Mrs. James Waze and Mrs. Ethel Newcomb winning prizes. The entire day was one of great pleasure and all expressed their appreciation to Mrs. Kenney for her hospitality.

### Y.P.M.C. Picnic Monday Night Enjoyed

The Young People's Missionary Circle of the Christian Church held an enjoyable meeting and picnic supper Monday night at the Christian Church. There were five visitors and ten members present. Miss Bernice Schildberg joined the Circle. The business meeting and program followed the supper. It was decided to hold the next meeting as a picnic at the Pines State Park next month, but no definite date was set.

### Beautiful Wedding Event August Fifth

On the evening of August 5th, 1933, the home of Mr. and Mrs. G. N. Youngberg, at 1718 North Richmond street, Chicago, was the scene of the wedding of their daughter Muriel Audrey Hjorth to Wyman H. Montavon, son of Mr. and Mrs. Juste E. Montavon of Compton.

The home was beautifully decorated in pink and white, and the ceremony took place before an altar of pink sweet peas and roses. The ring ceremony was used, with Rev. H. A. Hanson of the Trinity Evangelistic Lutheran Church of Chicago, officiating.

The bride wore a beautiful dress of eggshell satin, with a bridal veil trimmed in rhinestones, and she carried a shower bouquet of white roses and lilies of the valley. Mrs. Jean Fields, as matron of honor, was dressed in blue organza, and carried a bouquet of pink roses. The groom was attended by Irving Brehmer. The bride's sister, Audrey Youngberg, age 5, was the flower girl, and was dressed in pink silk, and the ring bearer, Master Eugene Paul Hjorth, age 5, a cousin from New York, wore a little suit of white satin.

Mrs. Elmer Panstull, accompanied at the piano by her husband, sang, "I Love You Truly," and Raleigh Fields sang, "Because."

After the congratulations had been extended the bridal couple and their eighty-five guests withdrew to an adjoining room where a delicious luncheon was served.

Miss Hjorth is a lady of pleasing personality, who has a large circle of friends who are extending best wishes to her on this happy occasion.

Wyman (Monty) will be well remembered as a popular vocal trumpet soloist at Compton and Paw Paw where he was active in music and church activities, and at Mendota where he attended high school. He later attended Northwestern University where he was a member of the University Band and the Varsity Glee Club.

Their many friends in this community extend best wishes to the happy couple.

### Miss Alice Aschenbrenner Is to Wed

Miss Alice Aschenbrenner of Ashton, was the guest of honor at a very delightful announcement party sponsored by her cousin, Miss Clara Aschenbrenner, at the latter's home Tuesday evening.

Upon the arrival of the sixteen invited guests a treasure hunt was announced in which all participated. Each guest succeeded in finding a treasure in one of which was discovered a paper heart with the inscription, "This is Station CUPID announcing that Miss Alice Aschenbrenner and Glen Osborn are to be married on August 19th. Congratulations and best wishes to them both."

Heart's provided the chief entertainment of the evening at which Miss Florence Ventler received first prize and Miss Hazel Boer second prize. Miss Alice, receiving the guest prize. One feature of the entertainment, which will prove of future interest to the bride-to-be was the writing of a letter of advice to her by each of the ladies, the letters not to be opened until after the wedding.

At the close of the exceptionally

### CONTRAST IN LINENS

White Suit and Brown Blouse Make Ideal Summer Outfit for Town or Country.

(From B. Altman & Co., New York)

Linens continue to be a summer fashion highlight. It's cool and it's washable, and chic is the woman who wears a linen suit this year.

One that is particularly handsome has a skirt and jacket of white linen with a brown blouse. The brown buttons on the jacket carry out the interesting color accent. Worn with finely stitched, white kid oxfords, the costume is an ideal summer outfit for either town or country.

pleasant evening delicious refreshments were served by Miss Clara after which the guests departed leaving with the honored guest their best wishes for a life time of happiness.

### Missionary Meeting Herman Hughes Home

The Woman's Home and Foreign Missionary Society of Grace Evangelical church held an all day meeting at the attractive country home of Herman Hughes on Tuesday.

A bountiful picnic dinner was most thoroughly enjoyed by all at noon and all enjoyed being out in the woods. After a couple of hours of recreation they were called together and the meeting was opened by all singing "Jesus Lover of My Soul." The minutes of the last meeting were read and accepted, and the roll call and business followed.

Johnson. The meeting was closed with prayers by Mrs. I. Dixon and Mrs. Mary June.

Mrs. A. V. Hartman was the leader for the afternoon.

### On Hot Day Serve A Cold Bouillon

With the summer heat taking away one's desire for food, it becomes necessary to serve a zestful first course which will whet the appetite.

A cold bouillon of jelly-like consistency is welcome on a hot day. Fruit in the form of a cocktail, soup or appetizer also is popular for summer meals. Chilled fish cocktails, vegetable appetizers and vegetable juice cocktails all make inviting beginnings for hot weather menus. Carefully seasoned and thoroughly chilled, these first courses invite one to forget the weather and eat.

### Don't Jell Too Stiff

If it's possible to serve a cold concoction in a well of ice, so much the better. But if this form of service is not convenient, keep the food on ice until ready to serve and always chill the service container before filling it with the mixture.

Jellied consommé is delicate for hot noons, or evenings. Highly seasoned it stimulates the appetite much as the hot soup does.

Jellied tomato bouillon is appealing with its tart piquancy. It should be quiveringly firm but not stiff enough to hold its shape. A too-stiff jelly is unappetizing.

Crisp wafers are a good accompaniment for any jellied soup. And radishes and celery can be served with anything but a mixed vegetable soup.

Canned soups, bouillon cubes or freshly made stock can be used for jellied soups. Instead of long cooking and fussing over meat bones trying to extract the gelatine, try using gelatine with canned soup or bouillon cubes. This makes a delicious jellied soup which is very easy to prepare.

### Extra Spice Needed

Extra salt and pepper are needed for jellied bouillon, since very cold foods have a tendency to dull the taste.

Fruit, also, is refreshing and zestful served in one of its many forms. In making a fruit cocktail be sure to cut fruit neatly in small pieces. Crushed or broken fruit is much less inviting than firm perfect sections. If melon is served as an appetizer do not cover it with crushed ice. This harms the flavor and is not a really effective method of chilling. Chill the fruit thoroughly before cutting and serve at once.

### Ladies Play For President's Trophy

Wednesday was ladies day at the Dixon Country Club and there were eighteen present for the nice luncheon. Eighteen played for the president's trophy, with Mrs. Harry Lager and Miss Maxine Rosenthal winning the prizes.

### ENTERTAINS FEW FRIENDS AT LUNCHEON TODAY

Miss Annie Eustace is entertaining a few friends at luncheon today at her Assembly Park cottage.

### Chas. Walgreen Jr., To Wed Miss Leslie

Although no formal announcement has been made, a Chicago paper, a day or so ago, printed rumors of the betrothal of Miss Mary Ann Leslie of Chicago, to Charles Walgreen, Jr., son of Mr. and Mrs. Charles Walgreen of Chicago and Hazelwood, beautiful estate on the north bank of Rock River. These rumors were verified this morning by Mrs. Walgreen, but no definite plans have as yet been made for the wedding. Miss Walgreen announces there will be something definite a little later.

Miss Leslie is a charming girl and spent the last week end with her fiancé and his family at Hazelwood. They are all very fond of her.

Charles Walgreen, Jr., is associated in business with his father, who established the Walgreen chain of drug stores, now famous throughout the United States.

## Our Patriotic and Economic Duty

TO PRESIDENT ROOSEVELT'S PLAN

### As We See It

THE food and grocery distributors, because of the many conditions within the trade, one of which is the handling of large quantities of perishable farm products, were given a Code by the Administrator containing 48 hours as maximum working hours of employment.

The purpose of the National Industrial Recovery Act is to employ people at a living wage which automatically brings about greater purchasing power so that producers, mills, factories and commercial organizations will have more business as a result of this added employment and increased purchasing power.

Grocery store hours during normal times have averaged 72 hours weekly, and to reduce these hours to any great extent and bring them closer to maximum labor hours would defeat plans and aims the N. R. A. wishes to accomplish. It, therefore, becomes the economic and patriotic duty of grocery stores to remain open reasonable hours per week so that added employment becomes necessary.

Our own thought on grocery store hours is as follows: MONDAY TO FRIDAY 8:00 A. M. to 6:00 P. M., and SATURDAY 8:00 A. M. to 9:00 P. M., which is a total of 63 hours per week, which is most reasonable and practical in grocery stores and which will aid in the accomplishments desired in the N. R. A. National Tea Co. offers these practical thoughts to offset some misunderstandings which seem to exist on grocery store hours. Those who advocate the adoption of grocery store hours totaling not less than 63 hours per week will perform a patriotic duty to the President as well as their economic duty, as distributors, to the consuming public.

## IS EUROPE HEADED FOR WAR?

Henry Morgenthau, American delegate to the international wheat conference, reports that Europe is bristling with arms and seething with the spirit of war. The fear of war, he said, was hanging over every European delegate at the conference, and this was one of the reasons no agreement for limiting wheat production could be reached; the nations wanted to raise and store grain for use in event of war. France, he pointed out, had subsidized wheat growers.

Mr. Morgenthau has had much diplomatic experience and is a keen observer. Europe undoubtedly is armed to the hilt, as he says, and is filled with international suspicions and jealousies, but there have been some evidences that the war spirit was less prevalent than last spring when President Roosevelt issued his memorable address to 54 nations warning of the danger of war.

For one thing, Soviet Russia during the economic conference signed a series of non-aggression pacts with nations along its southern borders, which it has been generally believed will greatly minimize the dangers of trouble, and do much toward destroying the fear of the smaller nations.

Mussolini's four-power peace pact, signed by his own country, France, Britain and Germany, pledging those nations not to engage in offensive war, is in effect. The Hitler government of Germany has shown a disposition to be more conciliatory in its foreign relations, and tension between Germany and France seems to have eased in some degree.

At present negotiations are in progress looking to the formation of a Danubian pact which would do much to eliminate the friction between France and Italy. Czechoslovakia, Yugoslavia, Rumania, Hungary, Austria and Italy, would be signatories to a treaty covering economic and political issues, which would open the way for recovery of the Danubian states. France, while not a party to the negotiations, has given her consent, necessary because of her influence over the smaller states.

All in all, at least some improvements in international relations has been brought about, even if the situation is loaded with danger, as Mr. Morgenthau points out.

## AN EVER-WIDENING CIRCLE.

There has been much discussion of how many people will be given work as a consequence of NRA's establishment of a work week of 35 hours in factories and 40 hours in the so-called white-collar pursuits.

The National Industrial Conference Board attempts to give a partial answer. It estimates that 838,000 additional factory workers would be needed to maintain the output as of May of this year, and 841,000 workers in "other pursuits." This is a total of 1,680,000.

The figure does not, of course, make allowances for increased activities which would result in many ways from the return of this number to work. Nor does it include those who are returning to work as a result of the general upturn in business.

Apparently there is no way to make a definite calculation. Higher payrolls bring increased consumption, and increased consumption brings more jobs. The theory is that the recovery process will operate in an ever-widening circle.

## A CODE FOR GYPSIES.

Freedom forsakes its last stronghold. Even the gypsies in far-off Rumania have succumbed at the modern-day craze for organizing, joining, and regulating.

No longer will their caravans wander over the open roads, and their camp fires light the woods at twilight. They are to have an association with a headquarters—permanent—and with officers, by-laws, and all the appurtenances of the typical society. Also, they'll have a newspaper, a university and a library.

But worst of all, the gypsies are to give way to rest houses, where the gypsies may stay until they can find work. Work, mind you.

It's too bad, this modernization of the freest people in the world, who alone have seemed to have the secret of doing what they pleased and going where they pleased, with utter disregard of the rest of the world.

Hollywood women get old sooner and lose their beauty earlier than women back east. The dry air and the blazing, sandy California scene is too much for them. — Polly Moran, movie actress.

Prohibition is on the skids. We can't escape it and we might as well not kid ourselves.—Major A. V. Dalrymple, national prohibition director.

Equanimity is the curse of American citizenship. Fixers dominate our political life.—Dr. Louis L. Harris, former N. Y. police commissioner.

What the world really wants is liberalism. But what is going on in the world is really the reverse of liberalism.—Lord Grey of Fallodon.

Putting brandy in a mint julep is like putting catsup in iced tea.—Irvin S. Cobb, humorist.

## THE TINYTIMES

(READ THE STORY, THEN COLOR THE PICTURE)

The Times pushed and pushed some more and then they heard the shark roar. "At last the rock is moving. You are meeting with success."

"Just keep it up. It looks to me as if the shark will soon be free. My, won't it be real tickled when it gets out of this mess."

Then Windy said, "I think it is best if we all take a little rest. Then with our strength back, I'm sure one push will do the trick."

"You are right," said Shrimpy with a smile. "Sit down, lads, for a little while. I'm satisfied, right now, that this is going to work out slick."

And so they rested on the sand. Soon wee Shrimpy cried, "Come and lend a hand. I'm ready for another push. You all must push with me."

"Heave ho," cried Shrimpy. "That's the stuff. Ah, ha, at last you've pushed enough!" And then the Times noticed that the great big shark was free.

They watched it swim around a while. "Why, I can almost see it smile," said Copy. "I am very glad we Times came along."

"So is the shark," said Shrimpy. "Say, you've made it feel real glad today. Why, you can even pet the shark, and nothing will go wrong."

Soon Windy very loudly cried, "Say, we still want to have a ride right to the playground of the sea. The shark might help us out."

"We'll make some reins of seaweed strong, and it can pull us right along," a grand idea, wee Shrimpy cried. "And it will work no doubt."

They found some seaweed near at hand, and pulled it up out of the sand. Then Shrimpy hitched the shark up, shouting, "This will work all right."

"Right in its mouth the weed will stay, and you will soon be on your way. I'm sure that nothing will go wrong, if you just hang on tight."

## WEEKLY SUNDAY SCHOOL LESSON

HANNAH—A DEVOTED MOTHER

Text: 1 Sam. 1:9-11, 24-28; 2:1, 2

The International Uniform Sunday School Lesson for Aug. 13.

By WM. E. GILROY, D. D.

Editor of The Congregationalist

The story of Hannah is in a much less adventurous atmosphere than that of Ruth and Naomi in our last lesson.

Here we have a woman in the somewhat troubled and unsettled days of the time of the Judges, but whose life was apparently chiefly domestic, a devoted and faithful woman, concerned primarily about the duties in her own home.

The life of Hannah, however, like the lives of so many in such simple and unexciting environment, was marked by a deep element of tragedy. Despite her strong instinct of motherhood she had been denied a child, and the life and environment of the home were marked on that account by the deepest disappointment.

In grief of soul she prayed what to her was a real affliction might be removed and that she might have a son. So intense was her prayer, and her earnestness, that she vowed that if her petition should be granted she would devote this child to the service of the Lord from the days of his babyhood.

Hannah's petition was granted, and in the days of her rejoicing she did not, as many others have done, forget the vow she had made in her time of yearning and distress.

The story henceforth is the story of Samuel, whom she brought as a child to Eli, the High Priest, that he might grow up in the service of the temple.

The story as it comes to us in our lesson is that of a mother's devotion and of the preparation of a life for goodness and service through her consecration.

If there were more mothers like Hannah, there would be more children like Samuel, and more prophets like the grown man who served Israel as a wise and righteous prophet and ruler, a man supremely devoted to the commonweal, courageous and unselfish in all his motives and actions, though some of his deeds pertained to an age of violence when cruelty toward enemies prevailed as the rule instead of the disposition of love.

Moley's New Job.—Prof. Raymond Moley's venture

into the executive field at London produced results not entirely happy in the relations between the "brain trust" and his superior, Secretary Cordell Hull.

But Moley's new job of surveying methods of combatting crime lies definitely in the planning field. It is not as a super-policeman that he takes up his new duties. He does not profess to be anything of that sort.

He is a specialist in outlining methods of court procedure as an aid to law enforcement, of organizing police departments, of devising new ordinances looking to more effective control of crime. It will be his job to find a way for more cooperation between the federal and state governments to prevent and control crime.

Interesting F. D. R.—It was in this particular field that he first attracted President Roosevelt's attention. Moley had conducted a survey of crime in the city of Cleveland that was generally credited with bringing about a decided improvement in conditions there. The New York crime commission heard of him and sought his services. Roosevelt was then governor of New York.

That the President's idea was to keep his "brain trust" strictly in the planning field is evidenced by the fact that of the dozens of professors at work for the administration none has been entrusted with the job of carrying out the plans they have devised.

Of course Dr. Morgan of Antioch College in Ohio was placed at the head of the Tennessee valley project, but Morgan's reputation as an executive was taken into account.

For Example—Some have pointed to the state department for an example of the weight given executive ability. When Cordell Hull was decided upon as secretary of state, some of the President's advisers were reported a bit skeptical as to his ability as an executive. Hull had been in congress long and had become known as a deep student of economics.

The President, therefore, placed William Phillips, a close friend that paralyzes us. Our influence is tiny and frail, and so we do not use it. Our vote counts for only one; it will not be missed. Others have the same feeling of futility; and so the town is turned over to the grafters to run as they like.

Well, what can I do? At any rate, I can help take the mock out of democracy by doing my duty. A snowflake is a fragile thing, soft and as light as a feather. But enough snowflakes falling noiselessly and piled together, can crush a steel roof and break it down.

Yes, there is going to be another war. It is bound to happen. All the signs point that way. There is no getting away from it. Human nature is human nature. It can't be changed. Its fighting instinct is deeply rooted. War is inevitable. It's terrible, but what can I do about it?

So we talk on, sitting on the porch. What can we do? Anyway, we can stop talking nonsense, and that will help a lot. If millions of people take the same lazy, hazy, fatalistic attitude of mind, not only war but something worse will happen—chaos will come!

How does war come? Who makes it? Not a few old men far off somewhere, with high hats and long coats. Not armament makers. Not soldiers. Folk like you and me make war. By indifference, by talking of war as if it had to be, we make the state of mind—or mindlessness—which makes war possible. It lies within our hands whether war is made or not. History is what we say—we the masses of men. We make it.

The world is ourselves writ large. As we think it goes, as we do not think, it drifts. By public opinion the world is ruled, and we are the public. As we think, act, speak, and demand to the world is. We are the world, we who make wars, fight wars, and pay the bills—or refuse to pay.

The world is big and I am small. It is old—so old that its age makes me dizzy—and my life is short; here today and tomorrow gone, like a mist that melts. The problems of the world are vast in extent and difficult in detail; and I am no expert. What can I do?

## RIP-SNORTIN' BATTLE ENDS BADLY FOR OUTLAWS IN "DAYS OF '49" MINING CAMP AT WORLD FAIR

CHICAGO, July 30.—Alive with the whinnying of bronchos and pintos at their hitching posts, a grimy street swells with the roughshod gaiety and six-gun sociability of the early West.

From one bare-board building pours the quickening melody of accordion and fiddle; from another the bawling song of a jovial, if over-fed, bar-hostess; from still another the clatter of clumsy caulked heels, thumping in the madness of the "fandango".

Lanterns hanging overhead throw light on the chatter and good-natured banter, parleyed under forty-gallon hats.

Dust clouds settling about the hoofs of the halted mounts bear testimony that claimstakers are seeking relief from the toll of their day, and, for all the noise and activity, it is a peaceful night in Gold Gulch.

Suddenly in the distance a faint rumbling sound adds a new undertone to the more blatant clatter of the little town. Steadily increasing in volume, the rumbling becomes more and more prominent. Outside the buildings, there is now a hush of apprehension. As if by telegraphy the silence spreads inside. Dances, songs, conversations are choked half-finished.

**Pistols Bark.**  
In a roar of thunder, a body of horsemen, cursing and yelling, bursts into the street. The stillness is broken by a scurry for cover. Bang! Bang! Bang-bang! Pistols bark. The lights go out. Flashes of fire, screams of pain fill the night.

Outlaws!  
From its very fury, the battle cannot last long. In a minute or two the smoke clears away. Lights are brought. Half a dozen outlaws lie in the dust of the thoroughfare, some dead, some dying. Again the sheriff and his courageous posse have saved the bullion in the as-

are a nightly show for visitors to the "Days of '49" at the Chicago World's Fair—A Century of Progress.

The authentic atmosphere of a mining camp that might have stepped right from the pages of a Bret Harte story has been created in this World's Fair showplace.

The buildings in their rough wood, the characters in the costumes of prospectors, the dance hall girls in curls and spangles—all figuratively roll back the curtain of the years to the days when men were men and hoss thieves were hanged.

There are more than a few bright spots in this colorful show. There is the Spanish dance hall with its bar and tables and old time chorus girls; the Miners' Fandango, a naughtier dance hall where fancily-garbed hostesses help to lift the burdens from the mind of the tired prospector; "Deacon" Oakhurst's recreation parlor, where the visitor may play faro, dice games, roulette

A real mining camp town of the gold rush period dropped into the heart of a great modern city is this "Days of '49" show at the Chicago World's Fair—A Century of Progress. ## BROUILLARD IS WINNER BY KO OVER BEN JEBY

Worcester Southpaw's Style Too Much For New York Boxer

New York, Aug. 10.—(AP)—Larruping Lou Brouillard, the French Canadian fighter from Worcester, Mass., has laid claim to a share of the widely distributed middleweight title recognition in a most decisive fashion and at the same time put in a bid for a place on the list of famous left-hand battlers.

Brouillard stripped Ben Jeby of his recognition by the New York State Athletic Commission as the middleweight champion by knocking him out in the seventh round of a scheduled 15 round bout at the Polo Grounds last night. And in doing it he not only confounded the New Yorker by his unorthodox southpaw style, but he outboxed, outfought and out-thought him.

The chunky New Englander fought a cool, heady battle, ripping in only when he could make his blows hurt, and finally laid his opponent low with one terrific left hand wallop in the seventh.

In Orderly Sequence  
The first six rounds all led up in an orderly sequence to the decisive seventh. Jeby, who was recognized as king of the 160 pound-

ers here after he knocked out Frankie Battaglia last winter, only had a look-in twice. He fought on even terms in the second, and again in the slow fifth.

Taking advantage of Jeby's bewilderment at his annoying southpaw style, Brouillard shot in body punches until the East Siders' guard came down, then worked on his chin until it moved up again. He broke loose with a series of smashing lefts to the body that left Jeby almost helpless as the bell ended the sixth.

In the seventh Brouillard made an opening with a body smash and as Jeby's guard dropped, whaled away with a long sweeping left to the chin that put Jeby down and out in 2:21.

Brouillard weighed 158 1/2, a half pound less than his opponent last night, but he has been growing so fast in the last couple of years that he is expected to move up into the light heavyweight division after a few more fights.

## ROMAN TRIUMPH TO BE REVIVED FOR GEN. BALBO

Crew Of His Armada Will Be Given Rousing Welcome Home

Rome, Aug. 10.—(AP)—A Roman triumph, a custom not followed for many centuries, will be revived Saturday to give Gen. Italo Balbo and members of his trans-Atlantic sea-plane squadron a rousing welcome home.

It will have another purpose, too—to pay tribute to Premier Mussolini as the inspiration for Italy's renaissance in aviation. It will compete in enthusiasm with receptions given the fliers in Chicago and New York and in other places along their route.

General Balbo advised the Air Ministry today that he plans to bring his armada to Ostia, Rome's new port, from Lisbon, Portugal, 1,300 miles away, without stopping. Their arrival in Italy is set for Saturday evening.

Returning from Ostia, the Premier and General Balbo will be driven through the central passage of the Arch of Constantine, just outside the ancient Coliseum, which thousands of Americans have visited.

A new roadbed has been constructed under the arch and a rail line around it has been removed. The 1,600-year-old monument, erected after Constantine's victory over Maxentius, will become the momentary center of attraction in the Roman world.

**AVIATORS MOURN**  
Lisbon, Portugal, Aug. 10.—(AP)—Sorrow over the death of a comrade in the Azores dimmed 16 members of General Italo Balbo's sea-plane squadron the happiness they otherwise would have found in preparations today for completing their flight to America and back.

The airmen prepared to fly directly to Ostia, Rome's new port, where thousands of Italians were expected to do them homage and escort them in a triumphal procession to Rome.

Twenty-three planes of the fleet arrived here at 8:30 A. M. C. S. T. yesterday. The 24th was damaged in taking off at Ponta Delgada, Azores, causing the death by drowning of Lieut. Enrico Squaglia.

relief pilot, and injuries to three others.

General Balbo decorated his men with the "wings" awarded to trans-ocean fliers. After three cheers for Premier Mussolini, he embraced and kissed each aviator twice.

Afterward, there were two minutes of silence in memory of Lieutenant Squaglia.

## 29 Derby Winner Is Claiming Race

Chicago, Aug. 10.—(AP)—Clyde Van Dusen, stubby little son of Man O'War, which galloped through the rain and mud at Churchill Downs to triumph in the 1929 Kentucky Derby, was entered today in a \$1,500 claiming race at Hawthorne.

Little Clyde, strong of heart but weak of leg, never accomplished anything of note after his sensational victory over Nashua, Pancho, Windy City, and Blue Larkspur, which was worth \$53,630. He was beaten in the 1929 American Derby and broke down soon afterward. He was thrown out of training, but tried at comeback as a four-year-old, only to fail because of the weakness of his legs.

Trainer Van Dusen had his namesake in there because he figured he had a chance to win, and because the thoroughbred was pinning away for a race.

## MONROE POLICY OUTWORN, SAYS NEVADA SENATOR

Key Pittman Gives His Opinion On Return From Europe

New York, Aug. 10.—(AP)—United States Senator Key Pittman of Nevada, chairman of the Senate Foreign Relations committee, renounced the Monroe Doctrine as "an outworn policy" today.

Returning on the liner Manhattan from the world economic conference in London, he said:

"I think that for the purpose of assuring the Latin American people that we are sincere in our announced policy that we will not interfere, we should make a declaration that there is no longer necessity for the Monroe Doctrine."

"We should say that the Monroe Doctrine is an outworn policy. It would be the greatest assurance the Latin American people could have that we are sincere and that there is no further obligation on our part to interfere in their domestic affairs."

"The purpose of the doctrine was to prevent certain European countries from extending their power to Latin America. At present the danger of European powers attempting to extend their governments to Latin America is negligible."

He declined to commit himself

## WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

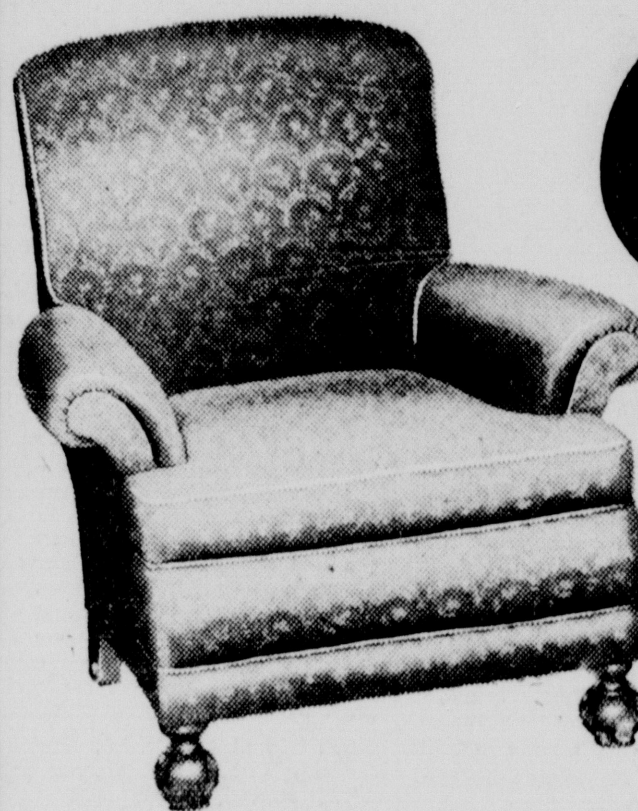

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. ©1931 C. M. Co.

# ENGINEERS OF TRANSPORTATION, 200 ACTORS MAKE "WINGS OF CENTURY" TRUE WORLD'S FAIR THRILL

CHICAGO, Aug. 10.—Conquest and travel will always thrill Americans. It took conquerors brave and bold to mould America from a vast wilderness. It took conquest as courageous to gain victory over the tremendous distances between the corners of a great nation.

What patriot has not wished for the chance to turn back the years that he might see for himself the struggles and the triumphs of his forebears? A dream, a dream...

Now in the Chicago World's Fair—A Century of Progress—it is a dream come to life. For "Wings of a Century", gigantic pageant of the romance of transportation, brings it to life.

Here, in a great amphitheater, on a spacious stage whose only back-drop is the spread of the skies, making the onlooker feel that he is gazing over the heads of the actors into a glorious future, are the actual vehicles that created the history of transportation in the United States.

## Reenact Boone's Trip.

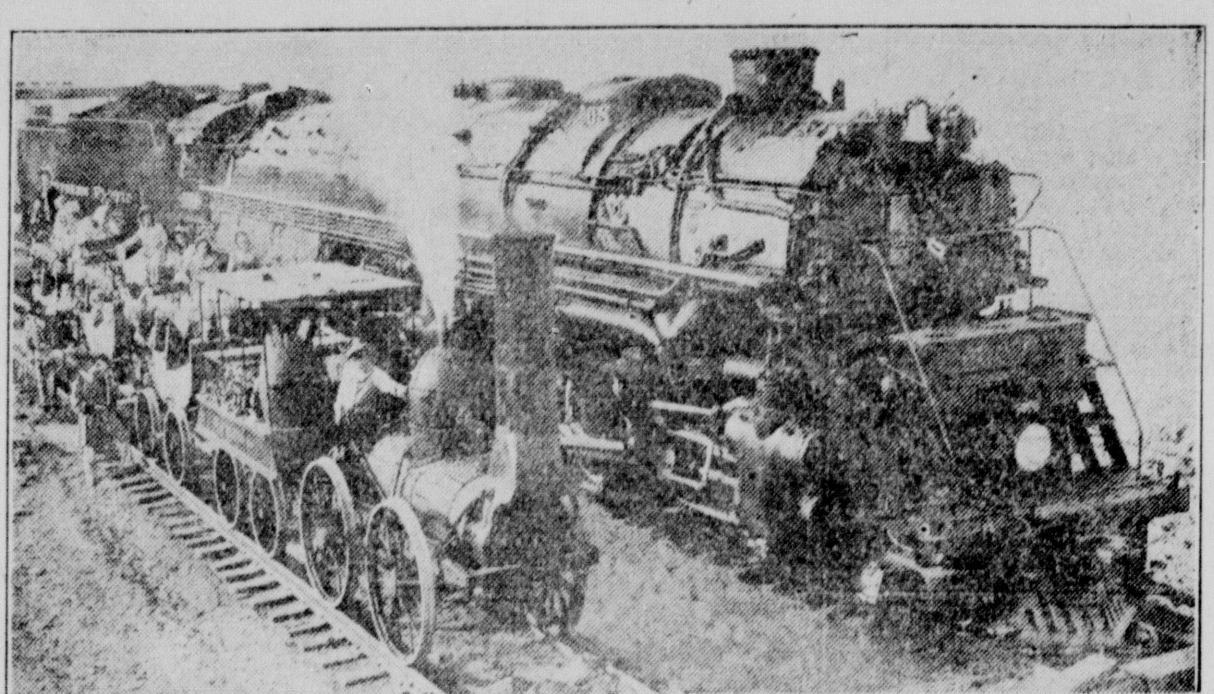

As the pageant begins, the wilderness pathfinder of 1700 to 1750, with his fellow pioneers, beats his way across the wastes on foot, on horse, in canoes, Indians, priests, hunters and trappers all are garbed actually as they were in the days of their work. The caravan of Daniel Boone follows, with the first wagons and carts to probe the new West. Even the blood-thirsting battles with savages are accurately reproduced.

The scene shifts to 1807. It is "Little Old New York", and the day is that of the voyage of the first steamboat, creation of Robert Fulton, opening a new chapter in water travel. The mayor and his party are on hand to greet it. Seeing the smoke, city firemen rush to the fore with buckets to save the ship from destruction, only to learn that it is meant to smoke like that.

Next come the barges of the old Erie canal of 1825, with their motley crews arrogant and happy in this, for them, the landing of the famous Baltimore Clipper ship reenacted in the next scene.

Now 1880 brings that new wonder of wonders, the "iron horse". Across the stage move the old Tom Thumb of 1829, the De Witt Clinton of 1831, the Thomas Jefferson, famed locomotive of 1830. The steel rails carry their trains

through the years up to the World's Columbian Exposition of 1893, and finally to the giant, sixteen drive-wheel monster of the Northern Pacific of today. All of them are carrying their load of passengers dressed authentically in period to lend realism.

Not replicas, or miniatures are these pioneer locomotives. They are real, the actual engines that made history, and they all move under their own power. Many of them are operated by the same men who were in their cabs when they rendered actual service. Thrills run up many a chilly spine when the ancient whistles blast the message: "There's life in the old girl yet!"

## Produce Old Autos.

The "horseless carriage" is not long in appearing upon the scene, and long and loud are the laughs at some of the ludicrous trail-blazers that paved the way for one of the world's greatest industries. And when the newest models of 1933 automobiles speed into view, there is a world of sincerity and gratitude in the applause of the thousands who view "Wings of a Century" every night.

In a grand finale, the take-off of the Wright brothers' airplane is brought to life again to the tune of rustic jeers and farsighted acclaim. In a final center-stage gesture, a huge transport plane of today hovers into view, with the question: "What will tomorrow bring?"

There is plenty of life in "Wings of a Century". Unlike many pageants, it moves fast and is full of

More than one hundred years older than the giant Northern Pacific locomotive with which it is pictured above is the De Witt Clinton, one of the earliest of railroad pioneers, but it still moves under its own steam in the great World's Fair transportation drama, "Wings of a Century". A scene from the maiden voyage of the first practical steamboat, invented by Robert Fulton, re-enacted in "Wings of a Century", is shown below.

means fewer quarts between drains

Why shouldn't Iso-Vis "D" last longer? It forms no sludge to stick piston rings—even tends to loosen up rings already stuck by ordinary oils. And next to high speed, stuck rings are the most important cause of high oil consumption. The use of Iso-Vis "D" actually tends to reduce the oil requirements of even an old car. ## DIXON, OREGON BOYS WIN U. C. SCHOLARSHIPS

Wm. Smith Of Dixon, Jas. Snyder Of Oregon, Lucky

Award of a two-year honor entrance scholarship, valued at \$600, to William Smith, 209 E. 6th St., Dixon, a recent graduate of Dixon High, has been announced by the University of Chicago. Smith will enter the University as a freshman this autumn.

The scholarship, covering tuition for the first two years of college study, is one of thirty-two similar grants awarded annually by the University of Chicago, and is highly prized because the basis of selection is high scholastic rating plus evidence of leadership in student activities. Nearly 400 applications for these scholarships, sent from all parts of the country, were scrutinized by the University committee of selection this year.

James E. Snyder, 302 Illinois St., Oregon, has also been awarded one of the two-year honor scholarships.

Students entering the University of Chicago now enroll under the University's famous "new plan," which is regarded as the most progressive plan yet devised by an American higher institution. Students are given a maximum of freedom. Progress is measured by comprehensive examinations, which the student may take whenever he feels himself ready. The first two years of study, approximately, are devoted to general education, and the second two years to advanced or specialized education.

## SUBLETTE NEWS

(By Mrs. H. D. Oeschger)

Sublette—The young people of the Union church are sponsoring a Carnival to be given Friday evening Aug. 11, at the Armory hall. The admission will be 10 cents for children and 15 cents for adults. There will be a play given by the young people entitled "Hist, She's A Man!" There will also be vaudeville sketches and plenty of good music. Come and enjoy this affair—forget your troubles. There will be enough stunts to keep you laughing all evening.

The Sublette Union church is planning to celebrate its seventy-fifth anniversary on the Sunday of August 27. Many of the former pastors will be here. There will be three special services—morning, afternoon and evening. Rev. Bollinger of Chicago will deliver the morning message. In the afternoon there will be greetings from the former pastors interspersed with fine music. In the evening there

will be a play presented by some of the members of the Union church. The play is entitled "Rural Life." Watch the papers for further information concerning this event.

## SENATORS EVEN UP SERIES WITH MCCARTY'S MEN

Cubs Beat Cardinals Second In A Row: Next Tackle Pirates

By HUGH S. FULLERTON  
(Associated Press Sports Writer.)

A great comeback by the Washington Senators had ended their "crucial" series with the New York Yankees all square today and the fans began to turn their attention to the National League, where the Pittsburgh Pirates and Chicago Cubs were about to open a duel for second place which might carry one or the other right up behind the pace-setting New York Giants.

The Senators and mathematical Monte Weaver turned back the Yanks 4 to 1 in their final clash yesterday to regain the rest of the ground they lost in Monday's doubleheader, and give them a three game lead.

Weaver, who has been out of action most of the season with a sore arm, let the Yanks down with seven safeties, and pitched no hit from the fourth until Babe Ruth connected in the ninth, scoring two runs off Lefty Gomez on Joe Kuhel's single after a hit, an error by the Yankee finger and an intentional pass had crammed the corners. They had tied the count at 1-1 the inning before.

### Cubs Meet Pirates

The Cubs set the stage for their struggle with the second place Pittsburgh club by pasting their old teammate, Burleigh Grimes, in the first inning and defeating the St. Louis Cardinals, 10 to 7. The victory left them only a half game behind the Pirates and 3 1-2 behind New York as both clubs were idle. They open a three game series at Pittsburgh today.

Grimes yielded four hits and Chicago made them good for five runs when Babe Herman topped off the rally with his 14th homer of the season.

The Boston Braves took advantage of the Cards' defeat to move into fourth place with a 3-2 victory over the Phillies. Ben Cantwell kept the Phils blows scattered and won his own game in the fifth by laying down a neat bunt in a squeeze play in the fifth to drive in the deciding run. A homer by Pinky Whitney, an ex-Philly, accounted for the other two.

The Boston Red Sox, who have made quite a habit of beating the Philadelphia Athletics lately, did it again by an 8-4 count as Lefty Lloyd Brown played a whole ball game by himself. He not only pitched the full distance but hit a homer and two singles. The Sox never had any trouble after four walks by Dick Oliver, an error by Finky Higgins and a couple of wild hits gave them six runs in the first.

Only two games were scheduled in each league.

## MOODY-ROUND MATCH LIKELY IN TOURNAMENT

American And British Stars Entered In National Play

New York, Aug. 10—(AP)—Another meeting between Mrs. Helen Willis Moody, queen of the American tennis courts, and Dorothy Round, the English girl who took a set from her at Wimbledon—the first set she has lost in six years—is in prospect for the final round of the National Women's singles championship if form prevails throughout the tournament which begins next Monday.

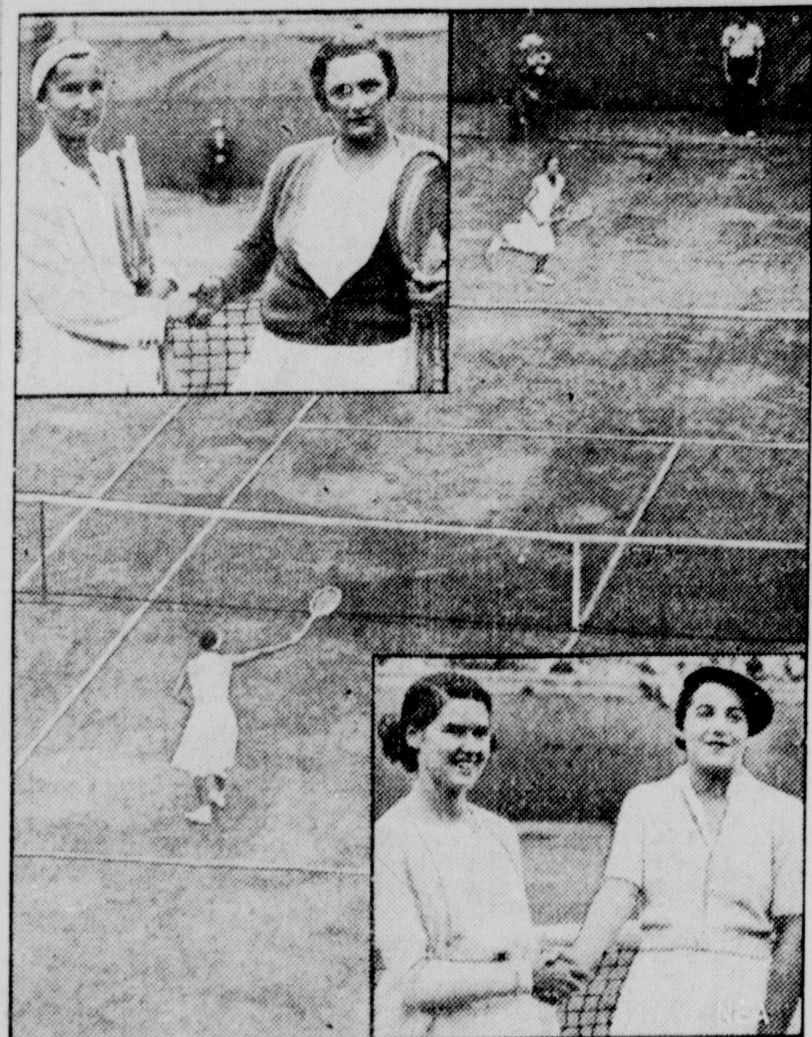

Mrs. Moody was given her usual

## Wonder Horse Heads East

Winooka, the great Australian horse which won his American debut at Tanforan recently, is headed east, where he may appear at Hawthorne track in Chicago. It is rumored that C. V. Whitney's great equine, Equipoise, who will be at Chicago, too, may stage a match race with Winooka. Above is an excellent closeup of Winooka.

## DON'T FRET, MRS. MOODY

When illness caused the withdrawal of Mrs. Helen Willis Moody, U. S. Wightman Cup hope, two of her teammates carried on for her, winning two singles and a doubles match. Above in action Helen Jacobs is shown beating Dorothy Round, back to camera, of England, in their singles match. Upper left the two are shown after the match, Miss Jacobs on right. Lower right, Sarah Palfrey, left, and Peggy Scriven are shown after Sarah had defeated the English girl.

## NATIONAL GOLF CHAMP WILL NEED GOOD LUCK TODAY

Sensational Golf Is Common In National Pro Tournament

Milwaukee, Wis., Aug. 10—(AP)—Hemmed in by a noted par-shelling field and confronted by Johnny Farrell in his second round battle, Olin Dutra needed all his tremendous strength, stamina and snail making wizardry today to keep his National Professional Golf championship.

Lined up against the big senior from the Pacific Coast, survivors of two days of record-smashing cannonading in which scores in the sixties were almost as numerous as alibis, was the fastest field that ever stuck in the championship drive through the first round. Still in the fight were such celebrated campaigners as Gene Sarazen, Tom Creavy, Paul Runyan, Farrell, Ed Dudley, Johnny Revolta, Johnny Golden, Harry Cooper, Al Espanosa, Bobby Cruikshank, and Willie Goggin of Selada Beach, Calif., a newcomer, who broke Leo Diegel yesterday by romping over 33 holes of the Blue Mound Country Club course five shots under par to eliminate the Ryder Cup star and twice National Professional titleholder.

### Others In Running

Right with them were Jimmy Hines of New York, co-medalist; Henry Picard, Charleston, S. C., who was three under par for 35 holes yesterday; Frank Walsh of Chicago, runner-up to Dutra at St. Paul last year; and Clarence Clark of Bloomfield, N. J., heralded by many pros as one of the real coming stars of the game. It looked a great battle with almost anyone in the field granted a chance to break through to win the title.

Stirring matches with plenty of action were in prospect today as the battle opened for quarter-final berths in the 36 hole struggles. Sarazen, who dazzled the galleries yesterday by selling away his match against Vincent Eldred of Pittsburgh, by burning up the front nine in the afternoon with a course record tying 31, four under par, faced Cooper, one of the most dangerous foemen in golf; Runyan, three under par in the first round over 31 holes, tackled Johnny Revolta of Menominee, Mich.; Golden battled Cruikshank; Creavy met Walsh, and Dutra matched shots against Farrell, 1928 National Open champion, in the outstanding battles of the round.

### In Lower Bracket

Dutra, who didn't have to contend with Sarazen, last year at St. Paul, was in the lower bracket, which rated as the hardest by far. Bracketed with him were Sarazen, Cooper, Cruikshank, Dudley, Farrell, Clark and Golden.

Farrell won the crowd yesterday with a great comeback in the only match that reached the thirty-sixth green. Five down at one time, Johnny marched back with great golf, negotiated a near dead stymie on the thirty-fifth to take the lead and halved the last hole to win as a light rain fell. Diegel lost the heart breaker. Although he was one under par, he fell four down at noon and lost as Goggin a powerful hitter, ended the match with two birdies. Willie Klein, another par shooter, also lost to Picard, who was three under par.

Revolta turned the widest margin, crushing Alex Gerlak of Catskill, N. Y., 12 and 11.

## Dixon's Youthful Golf Team To Meet Pick Of Freeport

Members of the Dixon Country Club golf team whose challenge to the Freeport club for a match came there next Wednesday afternoon has been accepted, and scores of supporters of the local team, are anticipating a red hot contest with the Dixon fans backing the youthful Dixon team to win. The Dixon lads—O. M. Rogers, Jr., Detweiler, O'Malley, Durkes, Lazier and Em Rorer had planned to enter the Northern Illinois—Southern Wisconsin tourney, which has been abandoned for this year, and felt that the battle would be between the Freeport and Dixon teams. Disappointed that the tournament had been called off and believing they could have been victorious, the Dixon lads decided to challenge the favored contenders.

## British Ace Is Swept Off His Feet by the French

Pat Hughes, British ace, thought he'd get the jump on his French opponents, Jean Borotra and Jaques Brugnon by leaping, kangaroo-fashion, for a backhand swat during Davis Cup doubles matches at Paris. This effort notwithstanding, Hughes and partner H. G. N. Lee went down to defeat 6-3, 8-6, 6-2.

## Hooks and Slides

By WILLIAM BRAUCHER  
How About It, FDR?

The National Recovery Act will not be complete until a code for college football payers is adopted. Many oppressed workers have already been aided, but real recovery cannot come until something is done for the ground-down high-school graduate who goes to dead-end jobs to play football for a consideration.

It isn't that the boys are underpaid. Usually they do very well for themselves, indeed. But sometimes the working conditions are something frightful. For instance word reaches us of a fast halfback of last season who was actually compelled to check in every day at his job of fourth assistant janitor in the astronomical laboratory. The pay of \$300 a month was regarded as being all right, but it was felt that to require his physical presence every day on the site of his job was an unwarranted interference in the constitutional rights of a good half back.

### Ain't It A Pity?

Still another sad case reported is that of the defensive fullback who suffered severe mental shock at the end of his first month at old Illinois. He was presented with a curious slip of paper from the dean's office which indicated that he was deficient in trigonometry, French, modern European history, Greek and Biblical literature.

He went to the coach and plaintively objected that none of the skill practice sessions in the gym had touched on these subjects, nor had the coach's blue-vitrol and sun-cotton lectures on the practice field included them. When the coach explained that these were academic studies in which he was expected to take a nominal interest the poor fellow swooned.

## BOY SCOUT NEWS

Local Troops Are  
Preparing To Take  
Part In Jamboree

Last evening at the city hall, County Commissioner Rev. A. B. Whitcombe met with his staff of Commissioners including Cal G. Tyler, Edwin Bunnell, Enos Keithley, Dr. W. A. McNichols and A. V. Newman, Boy Scout Field Executive. Reports were given on the attendance of the Boy Scout units from Lee County for the area-wide jamboree which will be held Aug. 16, 17 and 18, at Camp Pinehurst, near Rockford. Fifteen troops of Scouts have completed plans to participate in the three day camp. Units will leave their respective communities Wednesday morning, Aug. 16, and will arrive before noon at the jamboree site. Field Scout Commissioner Enos Keithley plans to stay the full three days with the Lee county Scouts and will have charge of the camp fire programs.

## TROOP 89 MAKES PLANS

Boy Scout troop No. 89 of the Christian Church are planning on sending a large delegation to the jamboree to be held at Camp Pinehurst near Rockford next Wednesday and continuing through Friday. The Scouts have arranged for an ice cream social to be held on the lawn at the Christian church Saturday evening, as a means of raising finances for the trip. Scouts planning to make the trip are requested to register their intention with Lamar Wells at once.

Miss Stella Christoff, 17, above, of Edwardsville, Ill., has confessed to police that she "got mad" and shot and killed Nelson Voss, a rural mail carrier, when he tried to kiss her.

## Plea for Sneezers in New Fight on Hay Fever

CHICAGO—(Special)—In a plea to middle western cities to put unemployed men to work cutting ragweed and goldenrod before the pollinizing seasons of these and other hay fever producing plant pests begin, the Hay Fever Prevention Bureau, in a current bulletin just made public here, reveals that hay fever, asthma and a number of kindred disturbances are all of allergic origin and may be traced to a definite histamine-like poisoning.

"Histamine," the bulletin points out, "is an amino acid composed of toxic protein-end substances. It is produced by any one of more than 350 different substances which include both food and pollens and even inorganic matter. The exciting causes range all the way from eggs to dog and cat hairs and many other things, such as feathers, flowers, veal and strawberries. These are all harmless to the normal person, but cause violent reactions in approximately 4 per cent of the country's population.

"The poison is found in practically all the smooth muscle tissues of the body. It may be lessened by restrictive diet, or by immunizing the patient with small injections of the particular pollen to which he is susceptible. These methods, however, are necessarily slow and often quite expensive, since they involve segregation of the hypersensitive agent. Success is also reported by treating the patient with histamine, a recently perfected antidote which is taken by mouth to neutralize the toxin.

"If left unchecked, histamine acts as a powerful constrictor, which is one of the reasons why practically 60 per cent of those who have hay fever ultimately develop asthma, characterized by shortness of breath. In its truer

Pollen from weeds, and even beautiful flowers such as these, science finds, may be poisonous to approximately 4 per cent of the nation's population.

aspects, hay fever may be regarded as a protective mechanism leading to deeper trouble such as asthma, eczema, migraine, etc., when it loses its power."

Studies in the mysteries of allergy, the bulletin concludes, have emphasized scientifically, that what is food to one man may easily be poison to another, and that no greater civic benefit could be undertaken to help lessen the suffering of allergic victims than by cutting down infested weed areas, which are one of the chief sources of pollen infection.

## CUT-UPS!

A BOOK  
A DAYMUCH GOOD READING  
IN THIS BIG BOOK

By Bruce Catton

One of the brighter spots of the summer publishing season is to be found in "An American Omnibus," a fat book of 1600 pages which contains enough first-rate reading matter to satisfy the most gluttonous reader and variety enough to hold the most finicky.

There's a little bit of everything in this book—or, rather, a great deal of everything.

There's Booth Tarkington's "Alice Adams", for example, complete

There's "Autumn," by Robert Nathan, and "The Killer," by Stewart Edward White. There's a flock of first-rate short stories—such yarns as "Big Blond," by Dorothy Parker, "Champion," by Ring Lardner, "The Killers," by Ernest Hemingway and "Death in the Woods," by Sherwood Anderson, to name only a very few.

There are poems by Carl Sandburg, Stephen Vincent Benet, Robinson Jeffers, Elinor Wylie, Edna St. Vincent Millay, Archibald MacLeish and practically every other modern American poet worth reading. There are selections from Frederick Lewis Allen's "Only Yesterday," and there's Edwin Justus Mayer's play, "Children of Darkness."

Best of all, to my notion, is "Archy and Mehitabel," by Don Marquis, that amusing collection of

verse, free and otherwise, which a companionable cockroach once tapped out on Mr. Marquis' typewriter. All in all, this omnibus is something pretty special.

The Fiji Island have favorable flying conditions since visibility is always good and there is an advantage to seaplanes in being able to land anywhere in the water around the islands which are protected by reefs.

Accessory tire and battery dealers of Dallas, Texas, have ruled that all rebuilt batteries for sale in that territory must be so marked in large, clear letters.

# BLOW-OUT PROOF\*

## RIVERSIDE TIRES

Blowout Proof because of an extra patented process:

## LATEX WELDED CORDS

(100% PURE LIQUID RUBBER)

which prevent Cord Separation... the cause of blowouts

Blistering heat develops inside your tire every time you drive your car 35 miles an hour or faster! Heat so terrific that in many tires it causes cords to separate. It weakens the tire from within, causing blisters you can't see. You hit a rock or a bump. Suddenly—BANG—a blowout! It may come today, tomorrow, any minute! A blowout that can send your car hurtling off the road! The lives of your family are at stake!

Riverside tires are built to prevent blowouts! Riversides' Cords—the heart of the tire—are made from extra strong, long staple, premium cotton. Every cord in every ply is dipped in LATEX—100% pure, liquid, virgin rubber. This welds the cords into a super strong unit! It gives Riversides the strongest tire carcass made! It prevents cord separation—the cause of blowouts!

## Why We Save You Money

Of course Riversides are made in one of America's largest and best tire factories. BUT—they come direct to us—minus the manufacturer's selling and general overhead expense. That's a saving. The second saving comes from Wards low cost method of distribution. These two reasons explain why we sell high quality tires for less. It's simple to figure out for yourself why Riversides are better in quality, mileage, and safety than any other tire at the same price.

## \*RIVERSIDE TIRES

will not blow out under normal road conditions during the life of the tread if they are kept properly inflated in accordance with the specified air pressures.

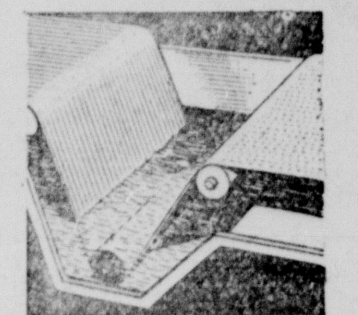

## Wards Unlimited Guarantee

For your protection every single Riverside tire is guaranteed by Wards to give service that is satisfactory to you. No time limit! No mileage limit! A tire has to be extra good—has to be extra safe to be backed by the strongest tire guarantee ever written!

## Cord Separation

This shows cords that have been separated by heat inside the tire. Cord separation causes internal blisters and weakens the tire. A blowout is the result!

## Latex Dipping

By an extra process, every cord in every ply in all Riverside tires is dipped in Latex. This welds the cords into a super strong unit that defies cord separation and blowouts!

## What's Meant by 'High and Dry'

"High and dry" was more than just a catch phrase to the North-western, Alaskan liner, which was beached on a sandspit after striking a rock near Juneau, Alaska. In the background may be seen the destroyer Trevor, which took off 131 passengers and crew safely. Note the man standing in the ankle-deep water.

That stacked up against beaming smiles Tuesday when the two of them emerged from a tete-a-tete in a dining room to give very definite impressions to onlookers that everything was going to be all right in the paragonage of Angelus Temple once more. An attorney (at that time) opined that dropping of Hutton's divorce seemed not unlikely.

"This reconciliation stuff," said Hutton last night, "has got ahead of me. Of course, I spoke with my wife, but that doesn't mean that my divorce action will be affected in any way."

His wife said she was going away on a preaching tour to forget a broken heart.

"I began my campaign of strenuous work," said Mrs. McPherson-Hutton, "because I wanted to forget. I have never worked so hard since my return home. It seems to help."

The evangelist hasn't been served with the papers in her husband's suit for divorce.

The rotund Hutton leaves tonight for San Francisco in furtherance of a career devoted to harlequin ballads on the vaudeville stage.

## Now David Puts End To Talk Of Reconciliation

Los Angeles, Aug. 10—(AP)—David L. Hutton, Jr., paused between daubs of grease paint in his dressing room at a downtown theater to call an abrupt halt to talk of a reconciliation between him and his evangelist wife, Aimee Semple McPherson.

## For the LOVE of EVE by Lucy Walling

BEGIN HERE TODAY

EVE BAYLESS, pretty, assistant to EARLE BARNES, advertising manager of Bixby's department store, secretly married DICK RADER, a construction superintendent. Dick opposes her continued employment and pleads for a home but Eve is determined to go on working.

The same day Eve learns that she is to be sent to New York by the store and must leave that night. She does not tell Dick this news until they are at dinner. He sees her aboard her train.

In New York Eve meets FRED CARTER, dress buyer for Bixby's, who introduces her to THERON REECE. Reece is much attracted by Eve. He angers her by trying to kiss her in a taxi. Eve leaves him without even saying good night.

NOW GO ON WITH THE STORY CHAPTER IV

EVE sat at the desk in her hotel room until nearly dawn, writing a letter to Dick. After her unpleasant experience with Theron Reece in the taxicab she longed for the safety and contentment she always felt in Dick's presence. In the letter she did not mention any of her companions except Freda Carter.

Freda left the next evening after a day in which she and Eve were extremely busy. They dined together and Freda asked Eve to call at her apartment after she returned to Lake City.

For the rest of the week Eve devoted herself to work but in spite of this preoccupation she was worried. No word had come from Dick. Freda would not allow her to call him by long distance, though she hungered for the sound of his voice. Each night she wrote him a long letter, pouring out her love.

After Freda's departure Eve felt the need of companionship and called on Irene Prentiss. They had been classmates in high school. Freda had gone to New York immediately following graduation and now, after five years of marriage, was still working in the office of a financial magazine where she had begun as stenographer. Today, however, she was assistant editor of that journal.

Irene appeared with several galleys in her hand. Eve thought she looked tired and a bit worn. Irene seemed glad to see her but explained that it was press day. Eve realized she should have telephoned to learn when it was convenient for her to call. Evidently New York business offices were not so informal as those in Lake City.

They went to lunch together but it was a hasty meal at a nearby restaurant. Irene wore a dark fur jacket that Eve admired.

"It's really very funny," the other admitted. "The difference between this and the stable I coveted went into stocks. I'm playing the market, darling, and it's the most exciting thing I ever did. I didn't need much to start; I pyramid. You must let me give you some tips!"

LATER she invited Eve to ride home with her for dinner and at five o'clock they met. Eve was immediately thrown into a seething mass of humanity homeward bound via the subway.

Ellsworth Prentiss, Freda's husband, was an instructor in a private school and each afternoon arrived home an hour or so before his wife returned from the office. He usually started preparations for their dinner.

The Prentiss apartment consisted of a luxuriously furnished living room and a spacious sleeping room with all its furnishings in pairs—twin beds, two chests of drawers, a slipper chair and sturdy

arm chair, two night stands, two reading lamps. There was a cozy yellow and blue kitchenette and here Prentiss had set the table for three. Irene explained that for "special guests" they used the gate-lake table in the living room. Eve, however, was accepted as a bosom friend. She enjoyed the simple meal of boiled potatoes, broiled chops, creamed carrots and lettuce and an icebox dessert.

The two girls cleared the table and stacked the dishes. Then they left Irene's husband before the fire, poring over a magazine, and went out to a concert.

"I'll never be famous," Irene said as they walked down the quiet street. "Probably I'll never be free from worry, either, but there's one thing I'm thankful for—good old Eli. Get yourself a good man, Eve, if there's one to be found these days!"

Eve resisted the temptation to tell even Irene that she had let her work take her away from her husband on their wedding night.

# ANNUAL REUNION OF 6th VOL. INF. ON NEXT MONDAY

## Boys Of the Spanish-American War Meet In Sterling

Sterling—The return to Sterling for the eighth annual reunion of the Sixth Illinois Volunteer Infantry, a Spanish War organization, on August 14 and 15, will seem like coming back home to some of the organizers as it was here that the organization was formed on December 10, 1926. The organization is composed of about 700 members, but due to the fact that a number have moved from the state, it is expected that only about 200 men and half as many women will be in attendance.

The program committee has arranged something for the visitors every minute of the two days, including a number of free attractions. Upon showing their badges they will be admitted free to the Lawrence park swimming pool, the two golf courses, a dance on Monday evening. The Elks Club has opened its doors to them. There will be a band concert in Central Park on one of the evenings and a parade at 4:30 o'clock Monday afternoon.

A well gotten up circular has been mailed to each of the members explaining about hotel accommodations and with a picture of the swimming pool. It also gives the program for the two days as follows:

**MONDAY—**  
10 A. M. business session.  
11 A. M. memorial services.  
2 P. M. election of officers.  
4:30 P. M. parade, followed by an old fashioned "bridge meeting" in Central Park.  
6 P. M. banquet. Talk by Congressman Leo E. Allen.  
8:30 P. M. Dance at Coliseum.

**TUESDAY—**  
Business session. To be followed by installation of officers.  
A large number of the old regimental officers are expected to be included in the list of those attending.

Final arrangements for the convention will be made Tuesday evening at 8 o'clock when all of the committees will meet at the coliseum.

## He'll Soon Become a Ten-Millionaire

A rich birthday present awaits John Jacob Astor 3d at Newport, R. I., on August 14. For on that date he attains not only his majority but the vast fortune left by his famous father, Colonel John Jacob Astor, who went down with the Titanic 21 years ago. The fortune is estimated at \$10,000,000.

## Husband Pleased After Wife Lost BULKY FAT

Reduced 21 Pounds—Skin Clearer and Feels Much Better

"I've lost exactly 21 lbs. with 3 jars of Kruschen and am so happy to get rid of that bulky fat. My husband is very pleased with me. My skin is clearer and I feel so much better since I'm not so heavy on my feet. Friends say I look much better." Mrs. Norma Spickler, Maconsville, Md.

To get rid of double chins, bulging hips, ugly rolls of fat on waist and upper arms SAFELY and without discomfort—at the same time build up glorious health and acquire a clear skin, bright eyes, energy and vivaciousness—look younger and feel it—take a half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast.

One jar lasts 4 weeks and costs but a trifle at any drugstore the world over. Make sure you get Kruschen because it's SAFE. Kruschen Salts are not addictive.

## Ol' Man River Rolls Him Along

Tides and storms don't worry William Neisch, sailor. It's punctures. For the curious boat in which you see him embarking from St. Paul, Minn., on a 1000-mile trip down the Mississippi to St. Louis, Mo., is made principally of inner tubes. If he strikes a snag, "man the pumps" will mean just an ordinary tire pump to Neisch.

Miss Myrtle Spatz of Chicago; Mr. and Mrs. Ward Paul of Shannon; and Mr. and Mrs. Russell Paul and son of Lima Township.

Mrs. Beulah Shellhouse of Freeport, enjoyed a week end visit with her parents, Mr. and Mrs. H. S. Sailer, residing near the Good school.

Mr. and Mrs. Clayton Shrieber and son of Leaf River, were visitors Sunday in the home of Mrs. Shrieber's uncle, Ben Weegans.

Mrs. Alice Shirk and children of Shannon, are spending several weeks in the home of her brother, Wm. Johann and family.

Mr. and Mrs. Thomas Hopkins of Davenport, Iowa, were recent guests of Mr. and Mrs. E. Hauritz. Mr. Hopkins is employed as a switchman in the yards of the Chicago, Milwaukee, St. Paul & Pacific Railroad at Davenport.

There will be no services at the Grace and Trinity Evangelical churches during the Sundays of August 13 and 20, because of the camp-meeting at Oakdale Park. As many as can are urged to attend the special services at that place.

Richard Carley of Morrison is spending his vacation with his grandparents, Mr. and Mrs. W. Trautman near Lanark.

Mr. and Mrs. Adam Kramer of Rockford and Mr. and Mrs. B. R. Kramer of Shannon were Sunday visitors in the home of Mr. and Mrs. J. O. Rubendall.

Mr. and Mrs. Milton Shafer were recently surprised by relatives and friends from Dixon, who came to enjoy a few hours of fellowship at their home, to commemorate Mrs. Shafer's birthday.

The guests included the latter's mother, Mrs. Mary Johann, Mr. and Mrs. Ray Wulbrandt and son, Randall, Mr. and Mrs. Darrell Palmer and Mr. and Mrs. Roy Finney and daughter, Irene.

Mrs. R. H. Garman and Mrs. W. A. Bowers left on Thursday evening for Oakdale Park, where

they will be employed at Hotel Oakdale. Mrs. Garman will supervise the hotel's culinary department.

Mr. and Mrs. Glen Unger accompanied by the former's parents, Mr. and Mrs. Grant Unger of Mt. Morris, motored to Milwaukee, Wis., Sunday, where they spent the day with Mr. and Mrs. Samuel Derr and family. The latter being a sister of Mrs. Grant Unger.

Mr. and Mrs. Walter Leopold of Mt. Morris, and Mrs. Harold Widmer of Chicago and the latter's mother, Mrs. Wm. Nesemeyer, were visitors Sunday of Rev. and Mrs. J. E. Widmer.

Mrs. Donald Hite and Donna Joan of Forrester are spending a few days with her parents, Mr. and Mrs. W. A. Bowers.

## Daily Health Talk

### PARALYSIS AGITANS

Paralysis agitans, or, as it is also known, the shaking palsy, is a disease of the nervous system which is characterized by three cardinal symptoms. These are paralysis, rigidity and tremor.

The disease is chronic and progressive. The onset is slow and insidious. The first symptom may be a tendency to a fine, rhythmical tremor of the hand or fingers. At first this is slight and inconstant, but soon becomes permanent.

Together with this tremor there are a peculiar weakness and stiffness in the movements of the fingers and a reduction in the power of muscular efforts.

The tremor, as observed in the hands has a very characteristic nature. The fingers move as if the individual were rolling a pill.

The disease usually progresses slowly, the tremors becoming coarser and the paralysis and the rigidity becoming more marked.

The intelligence of the sufferer is usually not affected, though when the paralysis agitans affects a pre-senile individual there may be present some mental disturbances due to his age and other physical conditions.

On the other hand, because of the distressing nature of the malady, mild emotional disturbances are not uncommon. Among these we find insomnia, depression and irritability.

The cause of the disease is unknown. There are certain predisposing factors which we believe contribute to the development of the disease. There are trauma or injury to the brain and central nervous system, and direct injury to the peripheral nervous system, particularly crushing injuries of the nerves of the hands and feet.

According to recent studies, emotional shock can contribute to the development of this disease.

The disease cannot be treated specifically, but a quiet, peaceful environment and care to promote general well-being will prove of help to the patient, who may live despite the paralysis agitans to an old age.

## A THOUGHT FOR TODAY

Hear the word, ye kine of Babylon, that are in the mountain of Samaria, which oppress the poor, which crush the needy, which say to their masters, Bring and let us drink. —Amos 4-1.

Hateful is the power and pitiable is the life of those who wish to be feared rather than to be loved. —Nepos.

## Cuban Student Spared Life Term

Troubled Cuba, beset by strikes and riots as President Machado staves a new election law, can still free by amnesty a youth sentenced to life in prison for attempted assassination of Machado. The youth, Ramiro Valdes Daussa, is shown being fondly embraced by his father upon Ramiro's release from a Havana prison. U. S. Ambassador Sumner Welles is believed partly responsible for the amnesty law.
